

Compact Fluorescent

SYLVANIA COMPACT FLUORESCENT LAMPS

These compact fluorescent lamps are available in a variety of colors and wattages. They are ballast specific meaning that if the ballast is 13 watts, you can only use a 13 watt lamp. You should make note that there are different bases depending on wattage and standard versus electronic. The only option that you have for a specific lamp would be color.

TCP GU24-1 BASE COMPACT FLUORESCENT

The TCP GU24-1 compact is designed using a special base to ensure that only that lamp type be used. It is popular where Utility Rebate programs are available.

TCP FRESH LAMP COMPACT FLUORESCENTS

The Fresh Lamp is designed to eliminate odors. This is achieved through a process of producing ions that neutralize odors and are eliminated as ultra violet light exits through the outer coating on the lamp.
